Rejection under 35 U.S.C. § 112, second paragraph

The Examiner has rejected claims 1-3 under 35 U.S.C. § 112, second paragraph, as allegedly vague.

Applicants do not necessarily agree with the Examiner. However, in the interest of furthering prosecution, Applicants have amended step c) of claim 1 to affirmatively set forth the step of immobilizing at least one adsorbent of an identified selectivity condition on the substrate. Therefore, amended claim 1 clarifies what is being done to prepare the substrate for detection of the analyte. Claim 3 has been amended for proper dependence from claim 1, and therefore also sets forth what is being done to prepare the substrate for detection of the analyte. Accordingly, the Examiner is respectfully requested to withdraw the present rejection.

CONCLUSION

In view of the foregoing, Applicants believe all claims now pending in this Application are in condition for allowance. The issuance of a formal Notice of Allowance at an early date is respectfully requested.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-273-4361.

Respectfully submitted,
